“ I worked with your Dad at Leever's many years ago. He was a good friend and dependable worker. Our time working together was short, but I have always wondered where life took him. I am saddened for your loss, but know that he is in the arms of our Lord now and back with his beloved wife.

“ I remember Gary from being my woodworking shop class teacher at Maple Valley school from 1978 thru 1980. I still have a gun rack and cabinet he helped me build in class. If you knew Gary very well, it took a lot of hunting stories and wild game recipes to get those built. Over the years I would run into Gary, and we would talk about those days. My memories of Gary will always be with me. RIP GARY.
