“ To the family of Jean:

*I met Jean, when I was a nurse at Sheyenne Care Center. I think it was her stubborn and opinionated personality that made a special connection between nurse and patient. I loved your mom, as if she were my own mom. Funny story, I had colored my hair (it looked like an Easter basket had exploded on my head). My own father was fighting cancer at the time, and it was my way, of knowing that no matter what life put in my path there was still color in the world. Dr. Misti was at the facility to do rounds, and Jean was on the list to be seen. (She had not seen my hair). We walked into her room, and her roommate says Oh, I love your hair. Jean says "What the hell did you do to your hair." Doc, Jean, her roommate, and I all laughed. Her response was so funny. Later I went back and visited with her, and told her why I colored my hair. I said "My plan worked, it made you laugh." I left the care center shortly after that, to care for my dad in the last days of his life, as well as care for my mom. My mom, and I saw Jean often at Legacy getting her hair done. She always had a hug for me, and she took the time to visit a bit with my mom. My mom, had a stroke several years ago, and speech was difficult for my mom. Jean was always patient enough to have a short conversation with her. It was truly an act of compassion. Jean will be missed. She brought joy and happiness to those that took the time to get through her tough exterior. Thank you so much for sharing your mother with me. Your family is in our thoughts and prayers, as you travel the journey of grief and loss.*
