“ *I had the pleasure of meeting Mrs. Braisted in 2007, as she was moving into Ave Maria Village. She had phoned me and asked if I could drive over from Fargo and receive a "fossil."*

I did so, and with a big smile she handed me her fossil: a "fossil baseball"! She had had a lot of fun with it, and we have since too! Mrs. Braisted and I had a wonderful visit that day, and I think fondly of her whenever I see her fossil.

With condolences to the family and friends,

When Mom was moving to Jamestown, she gave most of her rock collection to NDSU. Later she was told the collection was used to make traveling collections for use in schools across the state and this pleased her greatly.

That was certainly true. She had some nice specimens, which are now part of the "loaner" boxes that come out of NDSU Geosciences.

“ Your mother was a woman of great strength. I remember visiting the farm when we were young and the things your mom taught us while we were there. It is still a dear memory. Although we did not see her often, she has always held a special place in our hearts. I am so sorry for your loss. Love, Cousin Sharon
